EXPLANATIONS.

In order to make the Directory as brief as possible, we have made use of letters and abbreviations, which with the following explanations will be readily understood.

c. for corner.
n. c. near corner.
r. n. c. residence near corner.
b. between.
f. w. c. free woman of color.
f. m. c. free man of color.
r. residence.
N. S. E. W. the cardinal points.
Govt. Government street.

Where the name of the street is not expressed, it is to be understood, as Commerce means Commerce street.

Names will frequently occur, where no residence has been given other than the place of doing business, because none were ever received; and in some instances, there is a name without either a place for doing business, or a family residence: as they neglected to hand them in before the directory went to press, we do not feel accountable for the deficiency, particularly as we gave timely notice in the city papers to those concerned.

We have endeavored to observe a uniformity in giving the profession or occupation after the name—then the place of office, store, &c., then in case of a single individual of a firm named, r. is always put before the private residence.

In case of a copartnership, the firm is first inserted, then the individual names composing the same—who are also arranged in alphabetical order, and private residence given if requisite. Heads of families and persons established in business, almost exclusively form the register.

STRANGERS' GUIDE.

The streets run North and South parallel with the river in the order arranged, from No. 1 Front to No. 18 Scott.

The cross streets running from the river begin with Dauphin at No. 1 and extend to Adams No. 8 North. Those running parallel on the South of Dauphin, begin with Conti No. 1, and extend to Canal No. 8 South.

St. Joseph heads in Dauphin near Dauphin street Hotel, and runs North. St. Emanuel heads above St. Joseph on Dauphin and runs South.

This order of the streets embraces nearly all that are named in the Directory.

AT THE SIGN OF THE BLACK MORTAR,

Dauphin Street,

MOBILE,

DOCTOR H. GATES,

Takes this method to call the attention of the public to his **New Drug and Medicine Store,** which has been erected during the past summer, and fitted up with every possible convenience for conducting the business of an Apothecary on the most extensive scale.

The front room of the store, forty-seven feet deep by twenty-two wide, is furnished with four hundred and twenty mahogany drawers, raised two feet from the floor on fifty-six closets, and surmounted by shelves containing eleven hundred tincture bottles, and specie jars—and one hundred white porcelain pots, all properly arranged and labelled in alphabetical series.—Four counters, with ornamental finish, two counter, and twenty-two side show cases, together with the necessary scales, weights, measures, &c. complete the appurtenances to this part of the store—in the rear of which is another room thirty-two feet deep, fitted up and furnished with all the necesrary apparatus for conducting the Chemical and Pharmaceutical operations of the establishment. This, together with a large store room, about to be erected still further in the rear, will afford ample room for preparing, preserving and vending medicines in all their varieties, either simple or compounded.

To the management of the business, Doctor Gates gives his direct personal attention—and it will be his constant endeavor that every thing shall be done, as it ought to be done.—Care will be taken that all the articles usually found in the most extensive drug stores of other cities may also be had here, and of the best quality. The store will be open every day in the week, until ten o'clock at night—medicines may also be had at any hour of the night, for which a reasonable compensation in addition to the regular prices will be expected.

In closing this short notice of his establishment, Doctor Gates tenders his grateful acknowledgements to the citizens of Mobile for the extensive patronage which he has heretofore received. He has exerted himself to merit their confidence and support—his exertions to that effect in future will not be remitted. In the constructure of his present establishment, he has spared no expense necessary to make it what it is intended to be, a permanent retail drug store, where the public may at all times find a supply of good medicines, prepared with accuracy, neatness and despatch.
